week a tertific storm occurred in Yoko hama, doing much damage. The M. M. steamer Sydney broke her anchor chain and atruck with her atarboard quarter the end of the Umaha's lower boom, carrying it away. Her stern then struck the Omaha's port quarter, carrying away her whale boat and forecuttor and bending her fore quarter davits. The Sydney's mizen topmast was carried away, her whale boat smashed and the davits broken. The Captain of the Sydney, immediately his vessel began to drift, let go anchor and brought his vessel up before she had shifted many cable lengths. The Mongkut also broke loose from her moorings, but drew up with two anchors down before she had shifted two cable lengths. A great deal of damage was done on shore, especially along the sea front. The bund was a mass of wreckage next morning.

A CASE of great importance to shippora in

Hongkong was tried at the Police Court of Singapore last week. The German steamer Kriemhild, from Hongkong to Hamburg, called at Singapore. There was on board as part of her cargo ten cases of chanduthat is, opium or opium dross prepared for smoking. This was entered in the ship's manifest as opium, and as shipped by Messes Pustau & Co. for Hamburg. On alongside vessels hoisting Code Penant C arrival in Singapore the vessel was boarded between 9 and 10.30 s.m. on Sunday, to by an excise officer, who discovered the opium. A warrant was obtained, the chanda was soized, and the Captain of the Kriemhild was brought before the Police Court on a charge of having in his custody and control within the settlement of Singapore 5,000 tacls of chandu, valued at \$11,000, not purchased from the Singapore Opium Farmer. On behalf of the prosecution, it was stated that the cases were enof brass, the 50-cent piece of 86 per tered as opium, which is not contraband, whereas they contained chandu, which is contraband, and that no reason had been shown why 5,000 taels of chandu were being sent to Hamburg. I did not notice anything the matter with him. I was in the habit of seeing him constantly. I never always appeared to be in good again, but not to any special extent. After J. Sampson, Esq. Hon. Sec. : G. C. C. seeing what had happened I went into Master, Esq. deceased's room with Mr Sharp. There were some letters and telegrams on his desk some of which had been opened. I did not look to see what they were. Mr Sharp took possession of them. One of the tele-

Sharp, clerk with Messrs Gibb Livingston and Co., said-My deak is in the same room as that in which Mr Tennant's was. I arrived at the office about half-past nine on the 4th. I was met on entering by Mr Harton, with whom I went into Mr Tennant's office at once. On Mr Tennant's desk were two telegraph codes and a telegram. These were lying on the blotting pad. On the left side of the desk in a letter basket were a telegram and some letters and circulars. The telegram in the basket had been opened but the rest had not been opened. The telegram on the blotting pad was in cipher. I found the first word deciphered on the telegram itself in Mr Tennant's handwri ing. and I completed the translation of it. It was an ordinary business telegram. Nothing in the contents of the telegram suggested a reason for Mr Tennant's act. I have an objection to giving publicity to the telegram. Lord Dunlo was seen late in the day in the lobby of the hotel, but asked to be excused from being interviewed. 'It is quite true, however, he said, 'that I have become reconciled to my wife and that I am now the happiest man in I-cland.'

At this moment Lady Daulo came tripping down the stairs with a look of intense satisfaction upon her face, and she took Lord Dunlo's proffered arm with an affectionate hug. They then went driving in an open carriage.

Family reasons, notably the protest of the King of Greece, influenced this decision. Under the promptings of Emperor William both the Queen and the Prince of Wales are beginning to take a more active part in the foreign policy of England.

minence to a special London dispatch saying power that just as the Bondon dispatch saying power that, just as the Emperor's visit to Osborne in 1889 afforded a starting point leading to an Anglo-German agreement, and as the visit of the Prince of Wales to Berlin was not without a bearing upon that treaty, so Foreign Office circles now believe that there was political significance in the present visit of the Kaiser, the outcome of which may

natonish the world. The Post's allusions, as read here, point to the project of the Kaiser to obtain the Czar's assent to another Berlin Congress, aiming at a general European pence compact, implying a limitation of armaments. The belief in official circles here is that the Czar will treat the League of Peace as a futility unless associated with the restoration of Russian dominance in the Balkans and the permanent satisfying of France. Whatever the Kniser's peace idea may be, his movements tend to strengthen Germany in the event of war. His visit to Norway

was immediately successful in inducing the Government to consent to the recruitment of Norwegians and Swedes for the German navy, an ample supply of fine seamen being thus afforded.

POISONING EPIDEMIC IN INDIA. New York, August 9.—A Tribunc special from Calcutta says: The epidemic of poisoning which broke out early in the year has now extended to a large portion of India, and through many districts a virtual reign of terror exists. A detailed warning is also given to travelers against accepting the hospitality of the natives or purchasing drinks or eatables of any kind.

These precautions are rendered necessary by the fact that organized bands of poisoners have infested the railways, peddling fruit, cakes, drinks, etc., to passengers decree placing Heligoland under control chiefly at the stations. THE ROMANCE OF A YOUNG CAL FORNIA

London, August 11. - The engagement is announced of Jenuie Williams to Lord taking luncheon, the Emperor departed at Petre. Miss Williams is the bright and clever little actress who made her debut in San Francisco, and who made all New York laugh by her acting as Marie in 'Mamzelle' when Mme. Aimee produced that comedy at the Union-square Theater several years ago, and who afterward went on the variety stage. She was seen by a London manager and was carried off to England to surprise the natives by her eleverness.

The nobleman's full name is Lord Lawrence Petre, and his estate is Copfold Hall. Islington, in Essex county. He has immense parks, miles in length, and before portion of these fair lands to his still fairer either side.

(Ex Army Med. Staff) IS THE ORIGINAL AND ONLY GENUINE. Caution. -- Vice-Chancellor Sir W. P. Wood stated that Dr. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant Freeman being the inventor was deliberately untrue, which he regretted had been sworn to. Emment Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's, -- See Times, July 12, 1864. The public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE. REMEDIAL USES AND ACTION. This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the sceresions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

remedy ever discovered. CHLORODYNE is the best remedy known for Confighs, Consumption, Broughitis, Asthma. Chronopyne effectually checks and arrests those too often fatal diseases-Diphtheria, Fever, Croup, Ague.

Chloropyne is admitted by the profession to be the most wonderful and valuable

CITLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation

Chloropyne is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London.-Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has carned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better'is imported into the country, and we shall he glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances ad infinitum of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhosa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choloraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate breach of faith on the part of the chemist to prescriber and patient alike. We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excollency the Viceroy's Chemists.'

Extract from the General Board of Health, London, as to its efficacy in Cholera; -- So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases. CAUTION.—None genuine without the words 'Dr. J. Collis Browne' on the

THE CHINA REVIEW. OF BLISHED BI-MONTHLY.

PHIS Review, which was intended to meet the wants of many students of Chinese caused by the discontinuance of Notes and Ineries on China and Japan, has reached its Eighteenth Volume. The Review discusses those topics which are apperment in the minds of students of the 'Far East' and about which every intelligent person connected with China or Japan is desirous of acquiring trust worthy, information. It insludes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new de-parture has been taken, and the Review new lives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction, the Magazino would be mademore generally.

The Review department receives special attention, and endeavours are made to present a careful and concise record of Literature on China lete, and to give critiques embodying aketches of the Most recent works on such topics. Authors and Publishers are requested to forward works to 'Editor, China Review, care of China Mail Office.

The Notes and Queries are still continued and form an important means of obtaining from and diffusing among students knowledge on obscure points.
The Correspondents' column also affords

further and greater facilities for the interchange of views and discussion of various

Original contributions in Chinese, Latin. or any of the Modern Languages are received. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary bodies amongst whom a high degree of Chinese scholarship is assiduously cultivated. Amongst the regular contributors are Drs. Chalmers, Eitel, Bretschneider, and Hirth, Professor Logge, and Messes Balfour, Watters, Stent, Unillips, MacIntyre, Groot, Jamieson, Faber, Kopsch, Parker, Paylair, Giles, Piton, and Taylor, - It well-known names, indicative of sound scholarship and thorough mastery of their subject.

OUTSIONS OF THE PRESS. 'All our learned socioties should subscribe to this scholarly and enterprising Review.'-Northern Christian Advorate (U.S.) 'The China Review \* \* \* has un excollent table of contents.' - Celestial Empire. 'The Publication always contains subjects of interest to sojourners in the Far East and the present issue will hold favourable if not advantageous comparison, with preceding numbers. - Colestial Empire.

'This number contains several articles of interest and value. '-North-China Herald. The China Review for September-October fully maintains the high standard of excellence which characterises that publiation, and altogether forms a very untoresting and readable number. Mistoorologists will find an interesting and valuable contribution by Dr. Fritsche, on "the Amount of Precipitation (Rain and Snow) of Poking," showing the results

of observations mede at the Insperial Russian Observatory at Peking, from 1841 to 1880. "Notes on the Dutch Occupation of Formosa," by Mr. Geo. Phillips, contains intich of it is second-hand. The Notices of

all students of China and the Chinese would to well to justionise. - Chrysinthemum. The November December number of he China Review contains less variety than usual, but the few articles are very interesting. The opening paper by Mr Herbert 1. Giles on "The New Testament in Chi-

uses" treats of a question that must necessarily be of great importance in the eyes of all missionaries. . . Mr E. H. Parker's "Short Journeys in Szechuen" hose travels in the interior of China is riven. Mr F. H. Halfour contributes a paper of some length entitled "The Emperor Chang, founder of the Chinese Empire," which will be read with genuine interest by students of Chinese history, A few short notices of New Books and a number of Notes and Queries, one of which "On Chinese Oaths in Western Porneo and Java" might appropriately have been placed under a separate heading, complete the number.'-H.K. Daily Press.

Trichner's Oriental Record contains the

ollowing notice of the China Review: The present publication, judging by the quality low before us, is intended to occupy a position, as regards China and the naighbouring construes, some what similar to that which has been tilled in India by the Calculta Review.
